Jakarta, Indonesia

Fresh graduate of Universitas Indraprasta with a degree in Informatics Engineering. Passionate and experienced in software and web development, with a strong foundation in both frontend and backend technologies. Skilled in React.js, Next.js, Express.js, Golang, Laravel, and Django .Recently completed a personal microservices project, building a scalable architecture with Express.js and Laravel for the backend, and Next.js with React.js for the frontend.

Work Experiences

Wigathagroup - West Jakarta   Aug 2025 - Oct 2025

Fullstack Developer (Project-Based)

- Developed and refactored multiple web platforms using modern full-stack technologies.
- Built PrintIdea.id catalog categorization feature with React Native, enhancing product browsing experience.
- Contributed to Ducking.id — an e-commerce platform integrated with Taobao & 1688 APIs; implemented advanced product search by name, image, link, and shortlink using Next.js.
- Refactored cm-ducking internal management system (roles: Super Admin, Marketing, CS) with Next.js and Laravel, improving system performance and maintainability.

Personal Project - Remote, Indonesia   May 2025 - Present

Fullstack Developer

https://nicoaclass.my.id

- Built a microservices-based online class platform for both free and paid learning.
- Developed modular backend services with Laravel and Express.js.
- Integrated Midtrans payment gateway for secure transaction handling.
- Created dynamic frontend interfaces using Next.js and React.js.
- Implemented webhooks for order and payment synchronization.
- Designed scalable system architecture with AWS & NGINX.

PT Bakrie Renewable Chemicals - Jakarta, Indonesia   Dec 2024 - Apr 2025

Backend Developer

- Built a full Training Management System (TMS) web app from scratch to meet complex enterprise-level requirements.
- Back end: Django (Python) – designed scalable architecture & relational database schema.
- Developed automated email notification system – real-time alerts and reminders.
- Handled complex user requests and stakeholder feedback with scalable and maintainable codebase.
- Result: Streamlined internal training workflows, boosted engagement, and reduced manual overhead significantly.

SMK Mardhika - Jakarta, Indonesia   Aug 2022 - Jan 2023

Fullstack Developer

- I developed and managed a Learning Management System (LMS) that supported the school's website platform.
- As a key contributor at SMK Mardhika, I focused on building reliable financial modules and user-friendly interfaces using Laravel for the backend and frontend react.js.
- The system helped streamline academic and financial processes, making it easier for students and staff to access essential features.

EvaFuture - Jakarta, Indonesia   Jan 2024 - Mar 2024

Fullstack Developer

- Built two Laravel-based web platforms: a multilingual company profile and a student registration system to support Arabic and Indonesian language education programs.
- Developed scalable backend systems and dynamic UIs to facilitate cross-country scholarship programs between Indonesia and Yemen.
- Implemented secure user authentication, structured content management, and custom admin dashboards tailored to operational needs.

Education Level

Universitas Indraprasta PGRI - Jakarta, Indonesia   Aug 2020 - Aug 2024

Bachelor of Engineering Informatics, 3.24/4.00

Organizational Experience

Tech Buddies - Jakarta   Aug 2022 - Present

Staff

- Experience in software developer
- Knowledge of UI/UX design principles
- Commitment to working collaboratively in a team on a voluntary basis

Skills, Achievements & Other Experience

- **Soft Skills**: Problem Solving, Critical Thinking, Adaptability, Team Work, analytical thinking
- **Hard Skills**: Golang, Javascript, Java, PHP, Laravel, Rest API
- **Projects** ⊘: Website E-Learning NicoaClass
- **Projects** ⊘: Website Company Profile
- **Projects** ⊘: Website Diagnosa Penyakit Kucing Forward Chaining
- **Projects** ⊘: Website SPK Pemilihan Karyawan Terbaik metode SAW
- **Achievements** ⊘: Junior Web Developer (2023), Laravel 9 (2022), Cloud Practitioner Essentials (Belajar Dasar AWS Cloud) (2025), Belajar Dasar Pemrograman JavaScript (2025), Belajar Back-End Pemula dengan JavaScript (2025), Belajar Dasar AI (2025), Belajar Membuat Front-End Web untuk Pemula.
